

Studio CV

A concise public practice profile for curators, editors, commissioners, and collaborators.

Profile

Pooria Moozarm Nia works in monochrome fine art photography, building image sequences that move through thresholds, witness, reflection, weather, and winter passage. The practice prioritizes slow editing, coherence of tone, and series-based storytelling over volume.

Working method

Approach	Series-led editing rather than chronological dumping.
Visual language	Monochrome, reduced palette, image-first pacing, restrained text.
Current public body	18 works across 5 public series.
Core themes	Distance, witness, solitude, reflection, weather, and nearness.
Collaboration scope	Editions, exhibitions, editorial licensing, and selected commissions.
Base	Manchester, United Kingdom

Series profile

- Thresholds: architectural edges and the first pressure point of the sequence.
- Witness Horizon: open terrain, water, tree mass, and distance made visible.
- Weathered Nearness: rain, transit, and temporary shelter as emotional structures.
- Winter Passage: snow, reduction, and the altered terms of companionship.
- Stage Presence: lit interiors and performance space as a counterpoint to the landscape work.

Professional note

This CV is intentionally concise and factual. It supports first contact without inventing credentials or padding the record. Detailed publications, exhibitions, awards, and collection notes should be added only when they are accurate and final.

Inquiry details

For public use, contact routes are kept simple and direct.
